

## Lab: Sample Free Style Job Instructions

### Steps to follow: -

1. Login using your credentials in Jenkins on browser using URL: `http://<jenkins master server ip>:8080/`
2. Click **New Item** link on left panel
3. **Enter an Item name** like `<yourname>_firstjob`
4. Select **Freestyle project**
5. Click **OK**

*Job Details screen should be displayed.*

6. Enter **Description** such as "This is first free style project created by <Your name>"
7. Scroll down, under **Build** section, Select **Add Build Step** = "Execute Shell"
8. Enter **Command** as `echo "Hello <Your Name>, Welcome to Jenkins world !!"`
9. Click **Save**

*Congratulations!! Your First Jenkins Project is created.*

10. On Left Panel, click **Build Now** link;
11. Click the link "**# 1**" under left panel section **Build History**
12. Click **Console Output** link
13. View the log.

*It should display your hello message and Finished: SUCCESS*
